REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

the prior art fails to anticipate or make obvious the amended limitation to claims 1 and 12 of a capacitance detection device characterized by scan lines charging a reference capacitance. Although scan lines for selecting a detection unit are well known in the art (paragraph 6 of "REMARKS"), as admitted by applicant and as taught by the reference of Tartagni, US 6,320,394 (**vert1-2, hor1-2**, coming from vertical scan 6 and horizontal scan 5), the references do not suggest using the scan lines for charging a reference capacitor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S COMMENT

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wakisaka, JP 2005241892 discloses a circuit where that scan lines charge a reference capacitor.
